January 3, 2019

Dear Sir or Madam:

The Massachusetts Shellfish Offices Association, a non-profit organization of municipal representatives, has established a financial assistance program. Senior High School students enrolled in a higher education Marine Biology program and that are residents of a city or town that sponsors a representative to the M.S.O.A. (see listing) are eligible to apply for an award.

Please forward the enclosed forms to the appropriate personnel in your organization for distribution to eligible students.

Neither need, nor high academic excellence is a criterion in the selection process. Students showing consistent interest in Marine Biology are encouraged to apply.

The selection committee will contact each successful candidate to request a copy of their attending schools.

“Enrollment Letter”-On receipt of that copy, your high school principal will be notified of our selection.

Cities and towns sponsoring a representative to the M.S.O.A.
